## What will happen to this information.

The information you provide will be imported into a database that will support AMoS in targeting requests for mentors. It may have a joint benefit in allowing AMoS and volunteers to identify other ways of being involved in the organisation and for volunteers to come into the organisation with not just mentor in mind.

New volunteers will also be asked to complete this questionnaire.

Hopefully the questionnaire will be sent out annually to update information for the coming year of workshops.
